French Oak (Pattern 473 & Plank 503)

Crafted from Old World European Designs

Wood parquet floors are a timeless option that brings warmth and character to any space in your home. Stunning parquet wood tile designs range from simple to complex geometric patterns. Wooden floor tiles offer a level of visual appeal that cannot be achieved with traditional strip flooring boards. Although parquetry has a rich history dating back to the 17th century, it remains popular today and can be found in many modern homes and businesses throughout the world.

Pattern 473 & Plank 503

## CERTIFIED FRENCH OAK

- 300-year history of sustainable forest management and harvested only from certified French forests.
- Harvested only at full maturity after 150+ years producing a tighter, less porous grain structure. This results in a denser lumber with increased durability and stability.
- French Oak has less color variation and the highest content of any other oak around the globe. This allows for not only different tones and colors that cannot be found in other oak, but a consistency in color and grading year after year.

## EUROPEAN STYLING

- Wide and Long planks.
- Earthy base colors that allow the floor to be the backdrop of any home design style
- Unique coloring process including reactive treatments, fuming and lime washing react with the wood to produce colors while keeping the wood's natural character and grain.
- Eternal color pallets that last through all trends and never go out of style.
- Extreme Matte Urethane Finish enhances the wood grain. The look of an oil finish without the maintenance. No Oiling Required!

## WARRANTY

- Lifetime Structural Warranty
- 25-year Residential Surface Warranty
- 3-year Light Commercial Surface Warranty

## HIGH QUALITY & HIGH VALUE

- Crafted with precision Italian machinery.
- Cold press lamination takes longer to cure but results in more durable, stable planks.
- Features a strong 7-ply cross-grain construction. This design resists shrinkage, expansion and warping from seasonal changes. A hardwood core enhances stability.
- A 3mm wear layer can be re-sanded up to three times.
- Radiant heat compatible (up to 83° F).

## LIVE SAWN

### SOLID TOP WEAR LAYER

- Logs are “live-sawn”. By cutting straight through the log, you get a high percentage of spectacular and stable quartersawn sections with medullar flecks and cathedral grain all in the same plank. Wide live-sawn planks show the various idiosyncrasies of each log, including knots, pith or mineral deposits.
- 3mm top layer is comparable to solid wood and can be sanded up to three times.

## ENVIRONMENTALLY AND SOCIALLY RESPONSIBLE SOURCES

- Grown in forests that has been a model for sustainable hardwood management for the last 300 year. Trees cannot be cut unless new ones are re-planted.
- Harvested only from certified French forests.
- Harvested only at full maturity after 150+ years.
- Lacey Act Compliant.
- VLO : Verified managed-growth forest.
- PEFC Certified: The world's leading forest certification organization

## HEALTHY PRODUCT COMMITMENT

- CARB II compliant.
  - Actually 75% better than CARBII standard
- EO certified (European Standard stricter than CARB).
- No Urea formaldehyde.
- No VOCs.

## CONTRIBUTES TO LEED CREDITS

Relevant LEED Credits

Following are the LEED Credits\* for which Great Northern Flooring products can help earn points.

\* LEED-NC v2009

- Indoor Environmental Quality (IEQ)
  - IEQ 4.1 (Low Emitting Materials: Adhesives and Sealants)
 

To achieve a point under IEQ 4.1, among other requirements, "...all adhesives and sealants used on the interior of the building...shall comply with ...the South Coast Air Quality Management District Rule # 1168" which limits VOCs for Wood Flooring Adhesives at 100 g/L.
  - IEQ 4.4 (Low Emitting Materials: Composite Wood and Agrifiber Products)
 

To achieve a point under IEQ 4.4, "...composite wood and agrifiber products used on the interior of the building (defined as inside of the weatherproofing system) shall contain no added urea-formaldehyde resins..." Under EQ 4.4, composite wood and agrifiber products are defined as particleboard, medium density fiberboard (MDF), plywood, wheatboard, strawboard, engineered wood flooring, panel substrates and door cores.

## PRODUCT SPECIFICATION & PARTS LIST

<b>Board Dimension</b>	Plank 503 - 1/2" x 5" x RL UP TO 71" Pattern 473 - 1/2" x 4.75" x 23.75"
<b>Board Length</b>	Plank - Random Lengths up to 71" / Pattern – Standard Lengths of 23.75"
<b>Top Wear Layer</b>	3mm - Live Sawn Solid Top Wear Layer
<b>Construction</b>	1 Strip Wide Plank, 7-ply Engineered Core Tongue & groove, end-matched. CARB 2 Certified Plywood Core = emissions<.05ppm.
<b>Finish</b>	Acrylic Urethane UV Cured Finish. 100% solids, free of any solvents or heavy metals, Non off-gassing .
<b>Use</b>	Residential, Commercial (light to medium traffic).
<b>Installation</b>	Glue down, Nail/Staple down, Floating. Can be installed on, above and below grade. Radiant heat compatible. Refer to the Bella Modera Installation Guide for detailed installation instructions.
<b>Package</b>	Plank - 29.5 Sq.ft. / Carton & Pattern – 18.6 Sq.ft. / Carton
<b>Quantity / Pallet</b>	Plank - 48 Cartons / Pallet & Pattern – 48 Cartons / Pallet
<b>Weight</b>	Plank - 42 Lbs / Carton & Pattern – 20 Lbs / Carton
<b>Carton Dimension</b>	CALL
<b>Moisture Content on Delivery</b>	9 - 13%
<b>Warranty</b>	25-Year Limited Finish Warranty and Lifetime Limited Structural Integrity Warranty. 3-Year Commercial Finish Warranty. See Bella Modera Warranty guide at <a href="http://www.bellamodera.com">www.bellamodera.com</a> for specific details.
<b>Maintenance</b>	Vacuum regularly to keep surface clean from foreign objects. No Oiling needed. See Bella Modera Maintenance guide at <a href="http://www.bellamodera.com">www.bellamodera.com</a> for specific details.
